

LANTOS MINI

The **LANTOS MINI** pyramids form a complete set of 12 pieces. They are designed as a tool for therapeutical applications for the 12 chakras.

As an energetic light bath they cleanse the emotional body of ancient injuries from past lives and times. The purification of the emotional body brings the user more and more into his center, into his power and enables him to make his life more positive.

As an application we recommend a repetition every 2-3 weeks. The frequency can also be tested individually.

Having spent the time among people or simply feeling drained, the light bath can even be used more often. However, the duration of the application should not exceed 20 minutes.

TECHNICAL DETAILS

Material: Zirconia (diamond imitation)

Size: 20 x 20 mm (12 pcs)
