

WATER PEARLS

The **WATER PEARLS** were developed on suggestions from the Spiritual world.

They can be given into various water sources, such as streams, rivers, lakes, swimming pools, toilets or other bodies of water. These waters are restored to their natural energetic pattern/code. They can also be placed in jugs, water filters, water bottles etc.

Even if they are very small glass bodies, the impact is very effective.

The best effect can be achieved by giving the WATER PEARLS into the water with a short ritual – whether on holiday at the sea, on a boat ride on a lake or river, while walking along streams, ponds etc.

Using WATER PEARLS in an earth healing process together with the FOSTAC TERRA SET we have found, that the energetic quality of living waters and land sites has positively changed within minutes.

TECHNICAL DETAILS

Material: Swarovski glass

Size: approx. 10 mm (50 pcs)
